ENAS BESHIR

INFORMATION SYSTEMS GRADUATE
FULL-STACK DEVELOPER

PROFESSIONAL SUMMARY

Information Systems graduate with knowledge of computer systems, applications, and business processes. I have training in full-stack web development and experience in data analysis and reporting. I am eager to learn, adapt quickly, and gain practical experience while supporting users and contributing to a team.

EXPERIENCE

- **Data Analysis Intern – Mullege PLC & Owl Events**
  - Organized and prepared data for business needs
  - Created reports and used Power BI to present information clearly
  - Worked with computer-based tools to organize and analyze data
  - Supported the team by turning data into useful information for decision-making

FULL-STACK WEB DEVELOPMENT – TRAINING & PROJECTS

- Built web applications using frontend and backend technologies
- Worked with React.js to create interactive user interfaces
- Used Node.js and Express.js for backend development
- Worked with MySQL databases and backend services
- Used Git and GitHub to manage projects
- Practiced debugging and solving development-related technical issues

ADDITIONAL SKILLS

- Good communication and teamwork
- Customer and user support
- Time management and adaptability
- Willingness to learn and take responsibility
